Code Conundrum

***Brief description of the event:** Teams are given a set of programming problems and multiple code snippets written in a programming language. With randomized variable names and one extra decoy solution, they must analyze the logic and correctly match each problem to its corresponding code within 10 minutes per round for 3 rounds . Accuracy and time will determine the qualification of the next round .

Department name:CSE **Club name: GDGoC RNSIT**
Duration: 1hr 30 mins

No. of rounds (if applicable): 3 **Duration of each round:15min**
No. of teams(expected): 15-25 teams ***No. of people in each team: 2**
***Prize pool: Rs.4000** ***Registration money: Rs. 200 per team**

Flow of event : The event begins with a brief introduction and explanation of rules, scoring, and the no-AI policy. Teams are then given 3-10 problems statements depending on the round and a set of code snippets (including one extra decoy) written in a programming language. Over 10 mins per round , they analyze the logic and match each problem to the correct solution. Submissions are evaluated based on accuracy and time , and top-scoring teams are moved on to the next round , with tie-breakers applied if needed.

Round 1:

- 8 questions with 1 decoy solution
- Top 15 teams will qualify for the next round.
- Each round will consist of 10 mins with 5 mins buffer after each round for setting things up

Round 2:

- 7 questions with 1 decoy solution
- Top 5 teams move to round 3 based on the leaderboard
- This round will consist of 10 mins with 5 mins buffer after this round

Round 3:

- 10 questions with 1 decoy solution
- Find the top 3 teams based on time and accuracy
- This round will consist of 15 mins

The questions and solution given to the teams gets harder as the question number increases

Requirements:

- Laptop with chargers
- Pen and Notebook for rough work(optional)

***Rules:**

- **No AI tools allowed**
- **Accuracy and time determines the winner, tie breakers may be applied**
- **Follow all instruction from organizer**
